

Maria Sievert

Founder, Managing Partner.
Engineering & Management

During her studies of engineering management at the Technical University of Munich (TUM), Maria Sievert gained substantial practical experience in various areas of the mechanical engineering industry.

After research periods in the USA and South America, she was responsible for innovation management as a project manager within the Digital Services division at BMW.

She founded inveox together with the molecular biotechnologist and economist Dominik Sievert in 2017.

The company has developed an innovative digitization and automation system that significantly increases the efficiency of laboratories as well as the reliability of pathology diagnoses.

Since its founding, inveox has won numerous awards and grants, is part of several accelerators of renowned companies, was voted StartUp of the year 2017, featured at the World Health Summit and made it on the Forbes list of the “most promising startups 2018”.

As Managing Partner, Maria Sievert is primarily responsible for business development and strategic partnerships.
